Expériences Professionnelles

Junior Mobile Developer Advocate

Since September 2025 RightCom Cotonou, LI, Benin

Mobile Developer

From March 2024 to September 2025 RightCom Cotonou, LI, Benin

- **Improved and maintained a ticketing app:** Enhanced and ensured the continued functionality of a ticket management application originally developed during an internship, ensuring smooth operations for end users and improving overall performance.
- **Developed a mobile app for agents:** Designed and built a mobile application for agents to efficiently manage tickets, customer calls, and other service-related tasks, increasing the productivity and responsiveness of the team.
- **Implemented Bluetooth printing modules:** Developed custom modules for seamless Bluetooth printing integration within the ticketing app, allowing for efficient on-the-go receipt printing, enhancing the overall user experience.
- **Contributed to backend integration:** Collaborated with backend engineers to integrate real-time ticketing data, ensuring seamless communication between mobile apps and backend services.
- **Optimized user experience:** Led efforts in refining the user interface and user experience of mobile apps, ensuring intuitive navigation and enhancing usability for both agents and customers.
- **Implemented offline mode:** Developed and integrated an offline mode for the agent app, allowing agents to continue working even without network connectivity, with automatic data synchronization once the connection is restored.

Mobile Developer - Freelance

From June 2025 to July 2025 Ministry of Tourism of Benin Cotonou, LI, Benin

- **Developed a mobile app for rating tourist sites, hotels, and restaurants with a star-based system.**

Mobile Developer - Freelance

From October 2024 to December 2025 AgriBiz Cotonou, LI, Benin

- **Developed a mobile app for agriculture management: includes farm site monitoring, statistics tracking, team management with task assignment, task progress tracking, and integrated chat.**

Mobile Developer - Professional Internship

From November 2023 to February 2024 RightCom Cotonou, LI, Benin

- **Mobile App Development:** Developed a mobile ticketing solution in react native, creating a seamless mobile system for ticket management.
- **Developed native modules** for printing with mobile printers, enabling efficient printing functionality for mobile applications.
- **Implemented designs in code**, transforming design mockups into fully functional code for a better user interface experience in react native.

Frontend Developer - Professional Internship (Remote)

From August 2023 to October 2023 Cyberspector Cotonou, LI, Benin

- **E-learning platform** - spearheaded the frontend development of an e-learning platform designed for cybersecurity training, focusing on building a user-friendly and responsive interface.
- Used Vue.js to implement dynamic and interactive features, ensuring a smooth user experience across different devices
- Implemented design mockups into code.
- Collaborated with cross-functional teams in an English-speaking environment, contributing to discussions and problem-solving throughout the development process.

Expériences Professionnelles

● Backend Developer - Internship

From May 2023 to July 2023 RightCom Cotonou, LI, Benin

- **Online Payment System** – Implemented an online payment software using Node.js and Parse Server.
- **Cloud Code Development** – Created and optimized cloud functions to enhance backend operations.
- **Backend Architecture** – Designed and improved backend services for seamless integration.
- **Mobile App Development** – Developed a Twitter clone using Flutter and Firebase for the final presentation.

● Frontend Developer - Internship

From January 2023 to March 2023 Sobebra Cotonou, LI, Benin

- **WordPress Development:** Created customized **plugins** to meet Sobebra's specific needs.
- **Technical Skills:** Improved my knowledge of **PHP**, and database management.
- **Hands-on Experience:** Gained a deeper understanding of WordPress's **themes and plugins**.
